

MEGANITE®
Acrylic Solid Surface

2021/2022 PRODUCT LOOKBOOK

meganite.com.au

MEGANITE'S FEATURES & BENEFITS

HYGIENIC & NON-POROUS

Does not support growth of mould, mildew or bacteria and is stain resistant. Meganite is safe for food preparation and is certified by NSF. Suitable for spaces where hygiene is essential.

INCONSPICUOUS SEAM

Seamless surface joints with no crevices to trap bacteria and dirt.

THERMOFORMABLE & VERSATILE

Can be thermoformed, moulded, routed and shaped to accommodate both vertical and horizontal applications.

EASY MAINTENANCE

Easy to clean and does not require sealing or special products for maintenance.

HEAT RESISTANT

Heat resistant but avoid direct heating on surface.

DURABLE AND EASY TO REPAIR

Tough, durable material to withstand intensive daily use. Meganite can be easily renewed and restored to its original appearance after heavy wear and tear.

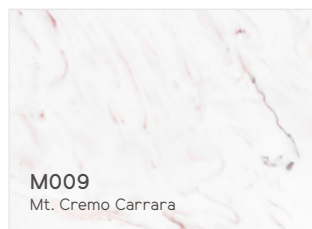

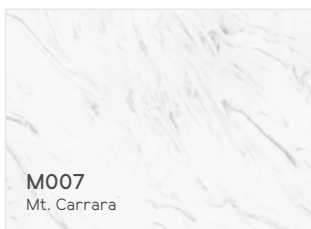

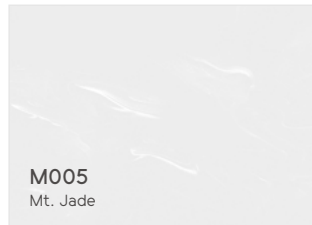

ACRYLIC SOLID SURFACE COLOURS

Australian Range

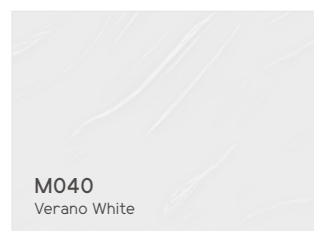

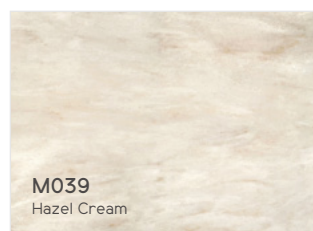

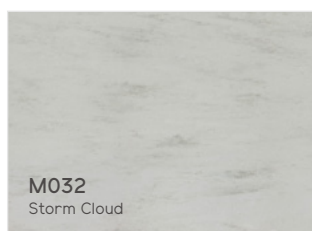

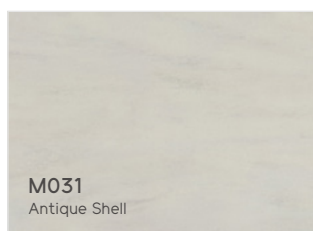

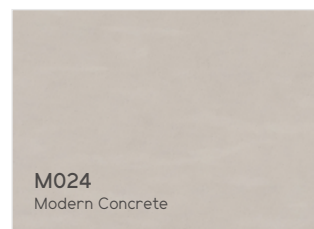

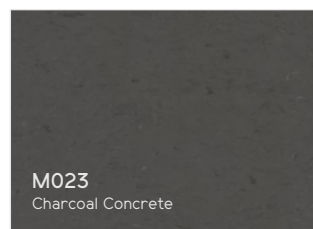

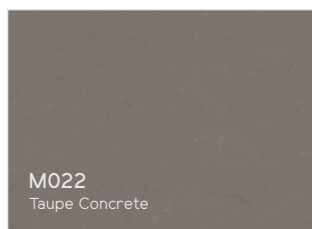

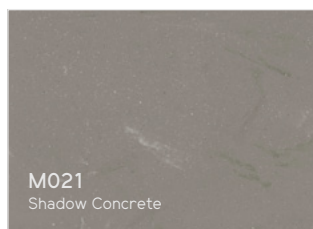

M007 Mt. Carrara

Design inspired by luxurious natural stone, this industry breakthrough marble collection is elevated above other colours because of the diverse aesthetic appeal, highlighted by distinct veining running through each slab, that offers a sophisticated look and artistry that makes them a classic choice for centuries.

Embodying the rough and strong look of concrete, the colours flow through different shades of grey ranging from gentle and warm grey to dramatic and dusky near-black tones. Monochromatic veins and fine particles breathe across the surface, creating a lavish and energetic look with a refined touch.

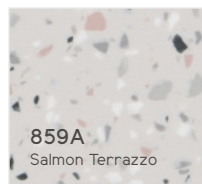

TERRAZZO SERIES

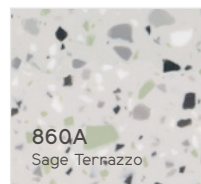

TT007 Urban Terrazzo

Meganite celebrates the renaissance of the popular 15th century Venetian trend with an all-new collection of Terrazzo inspired 100% acrylic solid surface patterns.

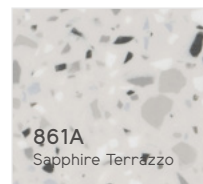

TRUE TERRAZZO captures the classic true look of natural terrazzo into modern design that reveals an extraordinary aesthetic potential and unprecedented versatility in daily use. Compared with original terrazzo tiles, the key advantage lies with all the fundamental functionality of Meganite's standard solid surface. Non-porous properties enable it to be installed in tough environments from healthcare to food service to residential spaces with hygienic performances and ease of maintenance.

ACRYMED SERIES

ENHANCED ANTIMICROBIAL SOLID SURFACE

AcryMed is specially developed to enhance indoor environment surfaces by protecting the surface itself against deterioration, stains and odour-causing bacteria. AcryMed has antimicrobial protection integrated into the solid surface sheet during production, it is not a top coating. Certified in accordance with ISO 22196 and JIS Z 2801, AcryMed offers integrated hygienic surface protection with a significant impact that effectively protects the surface itself against Meganite's selected bacteria.

More colours available by special order. Please contact your sales representative for more details.

Disclaimer: Tested 99.9% effective against Meganite selected bacteria in accordance with ISO 22196 and JIS Z 2801 testing standards. Results may vary when tested on different organisms, bacteria, and or standard. The AcryMed technology protects the PRODUCT ITSELF against stain and odour-causing bacteria. AcryMed does not protect users or other beings from disease-causing bacteria. AcryMed does not have anti-viral properties and cannot replace any cleaning process. Please contact your local authority/government regarding other virus cleaning recommendations.*

DARKER COLOURS, REDUCED SCRATCH VISIBILITY

Meganite's new X Series reintroduces a collection of much-loved dark colours with advancements that make them more application friendly than ever before. The X Series significantly reduces the appearance of scratches using a new formulation blend to give dark colours a richer appearance and reduces the sanding time to achieve your desired finish.

NOTES

1. Photos of Meganite colour samples can look different from actual colour samples.
2. Visual inspection and approval of actual colour samples must be done prior to placing an order and fabrication.
3. Bright, vibrant and dark colours are not suitable for certain applications as normal usage will show signs of wear and will require more attention.
4. * Dark colours need more care and attention, not suitable for heavy use areas.
5. Additional colour available with colour matching services. Please contact your sales representative for specific lead times and minimum order quantity details.

BASINS

Made with Meganite solid surface sheets, our basins come in all shapes and sizes to suit any applications. All basins come with top of the line waste and kits that comply with Australian Standards. The stocked range is available in Snow White.
